REPORT

The Alumni of K.B.N College Mr. B. Yohoshiva, Junior Data Scientist, Stabilix Solution Pvt. Ltd., Technopark, Thrivanram, Kerala presented a power point presentation on Machine Learning. Machine learning includes decision making through prescriptive and predictive data analytics. In that ppt he mentioned all the information about M.L i.e. introduction of M.L, it's types, and it's applications like in web search engine, photo tagging applications, spam detector, database mining etc. He explained the basic concept of statistics which measures central tendency. He explained mean, median, mode, mean deviation, variance, standard deviation with real time examples in more detailed, also correlation and regression analysis. He presented three types of algorithms developed in python programming language which are linked with the above concepts.
