☞ PRACTICE – 2 - ELEVATING STUDENTS FOR SUCCESS: KBN'S STUDENT-CENTRIC APPROACH

☞ PRACTICE – 1 - BE A LIFESAVER: DONATE BLOOD TODAY

2. Objectives:

- Foster a culture of humanity and Increase awareness among students and staff about the importance of blood donation and its role in saving lives.
- Encourage voluntary blood donations, emphasizing the significance of donating blood willingly and without any coercion.
- Contribute to meeting the local community's blood supply needs by organizing regular blood donation drives on campus.
- Educate about the blood donation process, and dispel myths and fears associated with blood donation.
- Actively involve students in the organization and promotion of blood drives.
- Collaborate with local blood banks or organizations to ensure safe and effective blood collection and distribution.
- To maintain a permanent well-indexed record of voluntary blood donors and to ensure the instant and immediate availability of the required blood group 24x7, throughout the year.
- Recognize and appreciate donors for their contributions, possibly with certificates or awards, to motivate continued participation.

3. The Context: Blood donation camps at the college level serve as a crucial bridge between young, healthy donors and the on-going need for a stable and adequate blood supply in local communities. The College is situated in an urban area surrounded by a number of villages which are largely inhabited by socially and economically backward communities. They face great difficulty while arranging blood at time of emergency. The arrangement of rare blood groups to the persons in need is also a big task. In collaboration with the Red Cross Society, Rotary Red Cross Blood Bank, Vijayasri Blood Bank, Government General Hospital Blood Bank and Capital Blood Bank, the College organises blood donation camps under the aegis of NSS, NCC and Red Ribbon Club. **'Be a Lifesaver: Donate Blood Today'** is the motto used to encourage volunteers to donate blood. This process enabled us to connect with the Red Cross Society and other Blood banks in Vijayawada and work in unison with them.

4. The Practice:

Blood donation is an ennobling act and very important need of our society. To meet the objectives of this practice, the institution constituted Red Ribbon Club which actively conducts programmes like Seminars, Awareness Sessions, invited talks on the importance and need of donating blood. The club members communicate the eligibility criteria including age, weight, health restrictions, and recent travel or medical history for blood donation to the volunteers and the Potential donors are informed about these criteria to ensure their eligibility before participating. Every year on College Foundation Day, Independence Day, and other days of importance the NSS, NCC and **Red Ribbon Club** of our college jointly conduct Blood Donation Camps in collaboration with Indian Red Cross Society, Vijayasri Blood Bank, Government General Hospital Blood Bank and Capital Blood Bank to collect blood from student volunteers. On the day of the event, donors arrive and register at the donation site. They provide their contact information and answer health-related questions. Trained medical professionals conduct thorough medical screenings to assess donors' suitability for donation. This includes checking haemoglobin levels, blood pressure, and assessing overall health. The collected blood units are donated to the blood banks for preservation and make it available round the clock, wherever and whenever it is needed. About **300 to 400 units of blood** are collected in the camps annually. After the successful blood donation programme, all the donors receive certificate of appreciation for their kind and humane gesture.

To ensure the success of the blood donation camps, organizers conduct awareness campaigns well in advance. These campaigns use various channels such as social media, posters, flyers, and campus or community announcements. One of our Senior NSS Programme Officers is a member of the Indian Red Cross Society, which helps the public to utilise this facility.

Every year the Red Ribbon Club in association with the Department of Zoology conducts blood grouping to the newly admitted students of KBN College and the data base is maintained by the **KBN Help Line**. Even during the COVID-19 pandemic period also the red ribbon club collected information on blood types from all the first year students through Google forms. On the basis of this data and under the supervision, guidance of the Helpline members of the college, the required blood group is supplied to the needy immediately by conveying the

information to the donors. The **KBN HELP LINE works 24x7.**

Evidence of Success:: The students have the utmost satisfaction beyond limits as they are able to serve society in the most exemplary manner. Patients suffering from chronic blood deficiency, accidents, those undergoing critical surgeries are provided with blood through the **KBN Help Line**. Every year people who approach in need of blood, are able to get the benefit of blood donated freely. About 1,700 units of blood are collected during the last five years (2018-19 to 2022-23) through organising Blood Donation Camps. This practice has enabled the students to overcome the hesitation and wrong notion about blood donation. Many of them adopted it as a healthy practice now.

NRI Hospital, Mangalagiri, Dr. Pinnamaneni Siddhartha Hospital, Andhra hospital, Purna Cardiac Hospital, Y.V. Rao Cardiac Hospital, Dr, Ramesh Cardiac Centre and Pallem Peddeswara Rao Heart Care, Vijayawada are some of the main beneficiaries of blood procured from voluntary Blood Donors.

Through this service, we could inculcate moral values and sense of social responsibility among the students. Initially a few number of hospitals were provided with the blood donated. Later, over the years the number of hospitals has increased as more number of students volunteered to donate blood.

The Red Ribbon Club of our college received Certificates of Appreciation from Red Cross Blood bank, Capital blood bank, Vijayasri blood Bank, District AIDS Prevention & Control Unit (DAPCU), and also received Silver medal from Indian red Cross Society, for its significant service in blood donation.

Problems encountered and Resources required:

Here are some common problems encountered and the necessary resources needed to address them:

Problems Encountered:

- Sometime the college faced problems as it becomes difficult to provide blood of rare group due to the non-availability of students at the time of need.
- Some potential donors may not meet the eligibility criteria due to factors like age, health conditions, or recent travel.
- Female students show some fear to donate the blood due to lack of awareness.
- Fear of needles, misconceptions about the donation process, or concerns about potential side effects can deter potential donors.
- Encouraging donors to return for subsequent donation events and become regular donors can be a struggle.

Resources Required:

- Students with rare blood groups were identified and their record is made available through the data.
- The problems were sorted out by organizing seminars frequently and invited talks to motivate the volunteers for the cause.
- Suitable venue and necessary equipment such as beds, medical supplies, and donation kits are essential.
- Budget for providing refreshments and snacks for donors after their donation to aid in recovery.

- Investment for safety measures, including first-aid kits, emergency response equipment, and proper disposal procedures for medical waste.
- Organize training programs and workshops for volunteers, staff, and organizers to ensure they are well-prepared for their roles.
- Arrangement of promotional materials such as banners etc.
- Organize awareness programs and workshops for students and staff.

By addressing these challenges and allocating the necessary resources, institution overcome obstacles and ensure the successful implementation of the "Be a Lifesaver: Donate Blood Today" practice, making a positive impact on the community and healthcare system

 **PRACTICE – 2 - ELEVATING STUDENTS FOR SUCCESS:
KBN'S STUDENT-CENTRIC APPROACH**

PRACTICE – PROOF

EVIDENCE OF SUCCESS

☞ PRACTICE – 2 - ELEVATING STUDENTS FOR SUCCESS: KBN'S STUDENT-CENTRIC APPROACH

Objectives:

- Foster an environment that promotes academic excellence by providing students with the **resources and support** they need to excel in their studies.
- Customize **educational programs** to meet the individual needs, learning styles, and goals of students.
- Encourage **holistic development** by offering opportunities for students to grow intellectually, socially, emotionally, and professionally.
- Prioritize the mental health and well-being of students.
- Create opportunities for active student engagement in both academic and extracurricular activities, fostering a sense of belonging and community.
- Equip students with the skills, knowledge, and experiences necessary for success in their chosen careers.
- Ensure that students have easy access to academic resources, libraries, technology, and other tools needed for learning and research.

The Context:

The students admitted in the college are from diverse background and mostly from rural areas. Due to lack of training on communication skills and soft skills during their 10+2 study the students lag in their respective areas. To have a holistic and overall development for their career the institution mainly focuses on several student centric methods such as Diploma programmes, internships, Skill development programmes, Industrial visits, ward counseling system, sports, yoga etc. which enable the student to meet their learning goals, academic success with required competencies. Some students show interest to become an entrepreneur; hence the college provides entrepreneurship development programmes like Meet The CEO through the EDC Cell. As the industry needs change from time to time, the placement cell empowers the students as per their requirement by offering training on soft skills.

The Practice:

The Principal, Vice-Principals and HoDs/Incharges develop individualized **academic plans** for each student based on their goals, strengths, and areas for improvement. These plans outline the courses, and resources required for success. Faculty and mentors work closely with students to monitor progress and make improvements as needed. As per the employers demand the college frequently revises the curriculum and introduces skill and career oriented programmes. In addition to the courses provided in the curriculum the faculty encourages the student to do **MOOCS** to learn new skills of their interest. In collaboration with **APSSDC** the placement cell offers training on skill development. **Credit based internship** is included in the curriculum to provide hands on Experience on the knowledge what they have learnt in their classroom.

Ward Counseling Committee assigns advisors or mentors for each class to provide guidance, support, and mentorship to the students throughout their academic journey. These mentors help students make informed decisions about their course selection, career pathways, and extracurricular involvement. The committee monitors each and every student attendance and interacts with the parents of the mentee who has less attendance.

At the beginning of the academic year, **Debate and Quiz Club(Pragna)**, and **English Language Club** collects the list of students who are interested to participate in co-curricular and Extracurricular activities and provide training to them by conducting competitions with in the college. They motivate the student to actively participate in campus activities, intercollegiate competitions, extension activities, etc.

Recognizing the importance of mental and emotional well-being of students, **counselling and psychological wellbeing centre** provides counseling services and wellness programs to help students manage stress, anxiety, and other challenges that may affect their academic performance.

The students selected **under NCC can get D or C** certificate which is useful to them in securing government jobs or to go for higher studies.

All the Departments arranges **Industrial visits, Field visits and botanical tours** to the students to foster a deeper understanding of their subjects, and help them connect classroom concepts to real-world applications. Additionally, they promote experiential learning, which can be a valuable complement to traditional classroom instruction. In addition to these **workshops, interactive seminars and Guest lectures** are supplemented to the students.

Learning resources like **Research Centers, State of Art laboratories, Digital Library, Central library, G-Suite** etc. are provided for their academic enrichment. Students have the liberty to explore their innovative ideas as research projects and startups.

Placement Cell assist students in securing internships, and part-time jobs related to their field of study. It also offers resume-building workshops, interview preparation, and job placement assistance.

Social responsibility and commitment is inculcated among students through the society outreach programmes organized by **NSS, NCC and Women's Studies Centre**.

The college regularly assesses the effectiveness of these student-centric methods through surveys, data analysis, and academic performance metrics. This data-driven approach allows institutions to identify areas for improvement and make necessary adjustments.

Evidence of Success:

Improved Academic performance:

The student pass percentage and student average CGPA has been increased due to the implementation of Ward counseling system.

Career outcomes:

Around 500 to 600 students pursued higher studies during the last five years . 80 to 90 percent students were placed in reputable organizations such as TCS , Wipro, HCL, Infosys, Genpact, Deloitte, Accenture, Capgemini, Hetero Drugs, Divis laboratories, Aurobindo Pharma, etc. and a positive feedback was received from employers about the skills and readiness of graduates who have been exposed to

student-centric career development initiatives. The statistics of the placement details for the last 5 years are given below:

Academic Year	No. of Students placed
2018-19	577
2019-20	575
2020-21	260
2021-22	612
2022-23	505

M.Sc(Chemistry) students got enrolled for Ph.D in Deemed universities like SRM, VIT with a good stipend.

Academic Enrichment:

The students of MBA, MCA, M.Sc Chemistry students completed online courses under swayam NPTEL, Coursera etc.

Problems encountered and Resources Required:

Problems Encountered

- Meeting the diverse learning needs and backgrounds of students requires careful planning and a variety of resources.
- ♣ Faculty and staff feel difficulty in adopting student-centric methods due to traditional teaching approaches or concerns about increased workload.
- ♣ Effective implementation often requires training and professional development for educators to adapt to new pedagogical approaches.
- ♣ Incorporating technology for personalized learning can be challenging due to the cost of technology infrastructure and ensuring equitable access for all students.

Resources Required:

- Training and on-going support for faculty to help them understand and implement student-centric methods effectively.
- Access to digital tools, learning management systems, and classroom technology to facilitate personalized learning and data collection.
- flexible classrooms and seminar hall and discussion rooms that are needed for seminars, workshops, guest lectures and interactive learning.
- Access to a wide range of learning materials, including textbooks, online resources, and multimedia content that can be tailored to individual needs.
- Financial resources to support various student-centric initiatives, including scholarships, grants, and research funding.
- Establishing partnerships with industry, community organizations, and other educational institutions.

PLACEMENT & GUIDANCE CELL – ACTIVITIES

PLACEMENT & GUIDANCE CELL

The Placement & Guidance cell of KBN College strives to train every student for enriching them with communication skills, reasoning and mathematical skills to face competition and to conduct placement drives and to provide their dream career and build their bright future. It helps each student in exploring placement opportunities by inviting various companies for campus recruitment of students who are in the final year of the programme and are likely to graduate at the end of the academic year.

The Placement Cell organizes career guidance programmes for all the students starting from first year. The cell arranges training programmes like Mock Interviews, Group Discussions, Communication Skills Workshop etc., . It also invites HR Managers from different industries to conduct training programmes for final year students.

OBJECTIVES

- To enhance the employability of students by providing them with the necessary skills, knowledge, and resources to excel in the job market.
- To offer career counseling and guidance to help students make informed decisions about their career paths, based on their interests, skills, and aspirations.
- To facilitate job placements for graduating students by connecting them with potential employers and assisting them in securing suitable job opportunities.

- To Establish and maintain partnerships with companies, organizations, and industries to facilitate on-campus recruitment, internships, and industry visits.
- To organize placement drives and recruitment events on campus, where companies conduct interviews and make job offers to eligible students.

SERVICES

- Organize skill development workshops and training sessions to improve students' soft skills, including communication, teamwork, leadership, and problem-solving abilities.
- Maintain a database of job openings, internship opportunities, and placement-related information to connect students with relevant career options.
- Collect feedback from both students and employers to continuously assess and improve the effectiveness of the placement process and services offered.
- Assist students in finding and applying for internships
- Help students create professional resumes that effectively showcase their qualifications and experiences to potential employers.
- Conduct mock interviews, workshops, and training sessions to prepare students for job interviews.
- Maintain accurate records and data related to placements, internships, and career development activities to provide valuable insights for future planning and improvements.

DEEKSHARAMBH – 2021

Introduction:

KBN College Autonomous conducted the Student induction programme from 16th to 17th April to make students comfortable with the institution rules and regulations. Transition from junior college to Higher education is one of the most challenging event in the student's life. When new students enter an institution, they come with diverse thoughts, backgrounds and preparations. They come into a new unfamiliar environment, and most of them have little knowledge of a college. An important task, therefore, is to welcome new students to Higher Education and prepare them for their new role. Student Induction is designed to help in the whole process.

Deeksharambh - Student Induction Programme:

The purpose of KBN College Deeksharambh 2021 - Student Induction Programme is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them build bonds with other students and faculty members, and expose them to a sense of larger purpose and self-exploration.

The term induction is generally used to describe the whole process whereby the incumbents adjust to or acclimatize to their new roles and environment. In other words, it is a well-planned event to educate the new entrants about the environment in KBN College, and connect them with the people in it.

Student Induction Programme engages with the new students as soon as they come into Our institution, before the commencement of regular classes. At the start of the induction, the incumbents learn about the KBN College policies, processes, practices, culture and values.

Students Induction could cover a number of different aspects (SAGE):

Socializing: meeting other new students, senior students, students union, lectures by Eminent People;

Associating: visits to University / college, visits to Dept./Branch/ Programme of study and important places in campus, local area, city and so on;

Governing: rules and regulations, student support etc;

Experiencing: Subject lectures, study skills, small-group activities, physical activity, creative and performing arts, literary activities, universal human values, etc.

COUNSELLING SESSIONS FOR
PSYCHOLOGICAL WELL-BEING

COUNSELLING SESSIONS FOR PSYCHOLOGICAL WELL-BEING

KBN College established Counselling and Psychological Wellbeing Centre with the primary objective of providing mental health and emotional support services to students and sometimes even staff members. This centre plays a crucial role in promoting the mental and emotional wellbeing of individuals within the college community.

The primary function of the centre is to offer counselling and therapy services to students. This may include individual counselling, group therapy, and sometimes family counselling. The goal is to help students address a wide range of issues, including stress, anxiety, depression, relationship problems, academic challenges, and personal development.

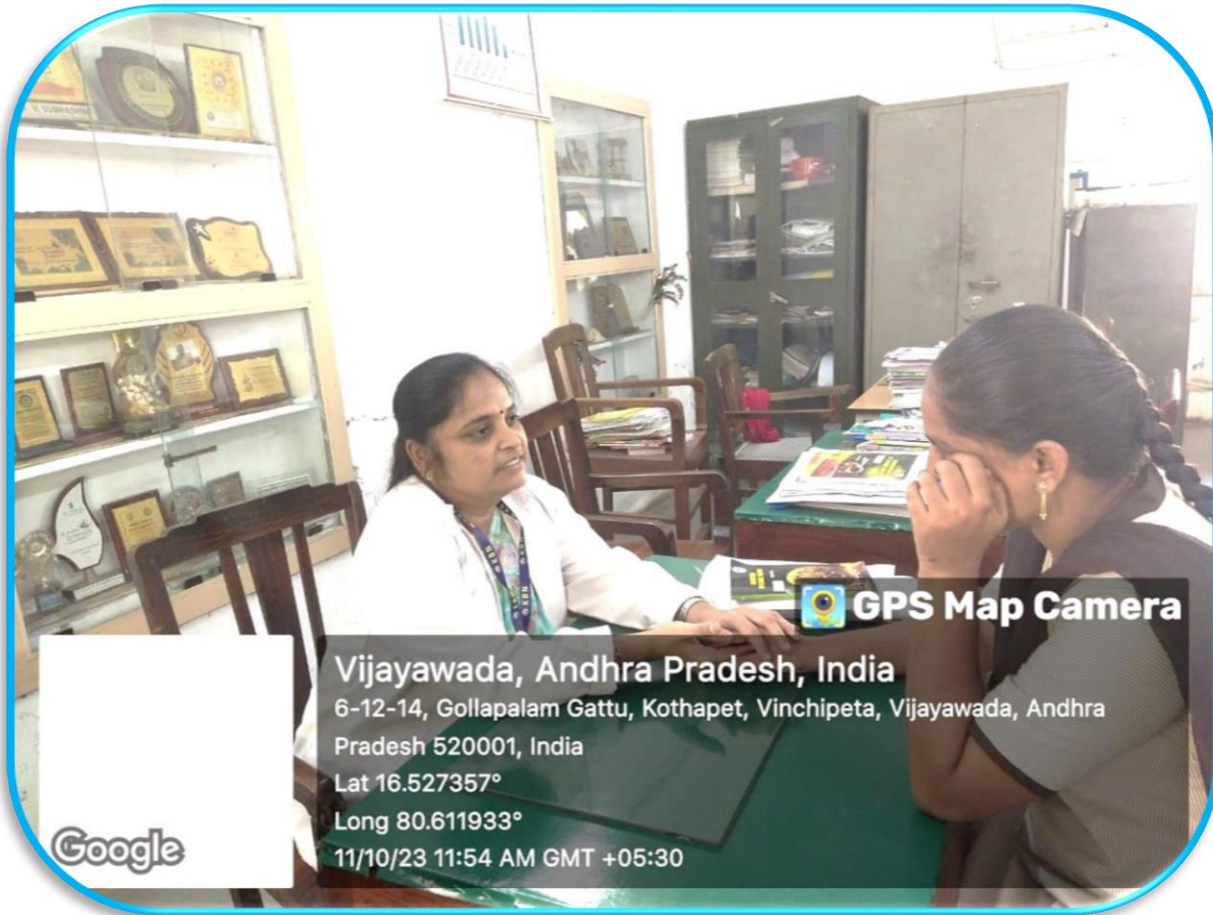

OBJECTIVES:

- Provide counselling and psychological support services to the students to help them cope with academic, personal, and emotional challenges.
- Assist students in developing effective study habits, time management skills, and stress management techniques to enhance their academic performance.
- Promote mental health awareness and resilience among students through workshops, campaigns, and educational programs.
- Offer immediate support and intervention for students experiencing crises, such as severe emotional distress, academic failure, or interpersonal conflicts.
- Provide strategies and resources to help students manage stress and anxiety related to academic and personal pressures.
- Offer counselling and education to prevent and address substance abuse issues among college students.
- Support new students in adjusting to the college environment and help them overcome homesickness or social challenges.
- Organize workshops and seminars on topics like mindfulness, self-care, and healthy relationships to promote overall wellbeing.

- Maintain strict confidentiality to create a safe and trusting space for students to seek help.
- Connect students with external mental health professionals or resources when needed for specialized care.
