

**Virtual Guest lecture on
Organometallic Chemistry
(4th September, 2021)**

PG Department of Chemistry organised a Guest lecture on “Organometallic chemistry” by Dr. Raghu Chitta, Associate Professor in Department of Chemistry, NIT, Warangal, Telangana on 4th September, 2021 for I M.Sc Organic and Analytical Chemistry Students through virtual mode.

In his lecture he covered the following topics

- Structure and properties of Organo metallic compounds.
- Applications of Organo metallic compounds.
- s- and p-block organometallic compounds.
- Artificial intelligence chemistry working of robots in the field of research
- The stability and reactivity of organometallic compounds.
- Determinations of molecular structures using computational chemistry.
