

KBN COLLEGE: DEPARTMENT OF PG CHEMISTRY
VISIT TO INCUBATION CENTRE (SRM University, Amravati)

(27th April, 2022)

REPORT

Final M.Sc Organic and Analytical Chemistry students visited Incubation and Research centres SRM University on 27th April, 2022.

The basic objective behind this visit was to make the students to: • Understand the concept of Incubation centers, • See the facilities provided by such centers, • Understand the various prototypes of business models and their operations. • Change perceptions from seeking job to creating the job.

It provides students a chance to learn practically from theoretical knowledge through interaction, working methods, and employment practices in large industries. It gives exposure to current work practices against possibly theoretical knowledge being taught at in college. Industrial visits provide a wonderful opportunity to interact with industries and know more about the industrial environment, how the machines are working, and which principles they work for. Students and faculty members immensely benefitted with the visit

Impact & Outcome of the visit:

Students expressed interest to develop a prototype of the following:

Generation of LPG gas from Liquid petrol.

Created interest in students to do research.

Students showed interest to join in SRM University as research scholars.
