ALUMNI INTERACTION

18/09/2024

PG Department of Computer Science and Applications organised Alumni Interaction for I MCA students with Sk. Basheer Ahmed of MCA (2022-24 Batch) who was selected for TCS with 7.5 LPA.

Purpose:
Engaging with alumni provides MCA students with valuable insights into industry trends, career opportunities, and practical applications of their studies.

Agenda:

1. **Networking:** Building professional connections that can lead to internships and job placements.
2. **Mentorship:** Alumni can offer guidance on career paths, skill development, and navigating challenges in the tech industry.
3. **Real-World Insights:** Learning from alumni experiences can help students understand the job market and required competencies.
4. **Guest Lectures and Workshops:** Alumni can lead sessions on emerging technologies, industry best practices, and soft skills.

Activities:

- Organize panel discussions featuring alumni from various fields.
- Host informal networking events or "Alumni Meet" sessions.
- Create mentorship programs pairing students with alumni.
- Encourage alumni to share success stories and career journeys.

Key Benefits:

1. **Insights on Placement Trends:** Alumni can share information about current hiring practices, in-demand skills, and industry expectations.
2. **Resume and Interview Preparation:** Alumni can provide tips on crafting effective resumes and preparing for interviews based on their own experiences.
3. **Job Opportunities:** Alumni often have connections with companies looking for fresh talent, potentially leading to job openings.
4. **Real-World Expectations:** Students gain a clearer understanding of what employers look for, including technical skills and soft skills.
